Start Strong • Troll Long

**Duracell Marine & RV batteries** offer advanced starting, dual purpose, and deep cycle performance to best meet the demands of a variety of power needs.

**Duracell Marine Starting batteries** deliver trusted cranking power with every turn of the key, whether you're right by the dock or miles from shore. Designed to deliver more energy to the terminals faster, these batteries deliver quick, reliable cranking power in mere seconds.

**Duracell Marine & RV Dual Purpose batteries** are ideal for high starting and moderate deep cycle service. Delivering more power-per-pound with reinforced components, they provide longer cycling service than starting batteries to provide more accessory power longer.

**Duracell Marine & RV Deep Cycle batteries** deliver the long, slow discharge of power necessary to run trolling motors or heavy marine accessory loads. Built-in protection against deep discharge damage provides added resistance against the rigorous wear of continual deep cycle use, such as extended trolling. These batteries also deliver moderate power for starting.

**FOOTNOTES:**

- 6. Black cover / Black case
- 11. Low maintenance-low antimony grids
- 12. Hybrid construction
- 17. Includes handle
- 21. Anchor lock elements
- 22. Flush manifold vented cover
- 35. Deduct 15% from CCA and CA rating shown to allow for double insulation (glass mat)
- 44. Free replacement warranty is 3 months in full electric vehicle use
- U. Molded-in offset SAE post and vertical 5/16" NEG., 5/16" POS. stainless steel studs & hex nuts

## STARTING

### Quicker Turnover with Less Cranking

- High cranking power for quick engine starts
- Flush cover, easy-to-install design
- Extra reserve capacity for emergencies
- Maintenance-free design

## DUAL PURPOSE

### Starting and Cycling Power Solutions

- High starting and deep cycle capability
- Longer cycling than starting battery
- Extra reserve power for accessory loads
- Rugged vibration resistant construction

## DEEP CYCLE

### More Fish-Finding, Trolling and Accessory Power

- More power for trolling and electronic accessories
- Built-in protection against deep discharge damage
- Rugged vibration resistant construction
- Reliable power for modest starting

Deep cycle batteries also have special fiberglass mats to improve deep cycling and long-life performance.

### Extended Life Systems

- Special separators prevent life-robbing electrical shorts
- Protects power producing components

### Optimized Full-Frame Plates

- Better withstands severe service demands
- Optimizes current transfer

### Enhanced Durability Designs

- Fortified current carrying components resist vibration
- Maximizes performance throughout battery life
