

DURACELL®

6-Volt Deep Cycle AGM

2x Durability & Dependability • 2x Cycle Life • 20x Vibration Resistance

Duracell 6-Volt Deep Cycle AGM batteries feature a durability enhanced design to handle even the most demanding applications.

Duracell 6-Volt Batteries

deliver added resiliency to deep discharge damage provides the industry's best 6-Volt solution for dependable deep cycle service.

Heavy marine house power, renewable energy powered equipment, portable power needs, golf cars and other types of electric vehicles can all take advantage of this advanced, completely spillproof maintenance-free power that eliminates watering and unnecessary maintenance.

Designed for more efficient recharging, these AGM batteries actually recharge faster than conventional designs to spend less time on the charger and more time in service. Utilizing golf car size batteries can enable users to get more amp hours in the same footprint.

Technological innovation meets durability, dependability, and convenience in this next generation of the Duracell 6-Volt Deep Cycle AGM battery.

Now Featuring DuraMAT™ Components

More battery power protection with...

- Superior electrolyte absorption
- No free-flowing electrolyte
- Shock absorbing material
- Optimized power flow

TRUST IS POWER.

Visit www.driveduracell.com to see the entire line of battery solutions for any application need.

Not just another battery offering, the Duracell AGM line delivers the best single source of premium AGM battery power solutions for the automotive, import vehicle, marine, power sports, and commercial markets. The variety in the Duracell AGM line has batteries to best service the vehicle and user's needs by integrating the optimal balance of starting, cycling, and deep cycling performance.

Designed for more efficient recharging, these batteries recover faster in the vehicle's charging system than conventional flooded batteries to deliver more accessory power longer.
