

# DURACELL®

## Commercial AGM

Extra High Performance • Trusted Starting Power

Duracell Commercial AGM batteries offer a complete, powerful line of maintenance-free products to meet all of your commercial vehicle needs.

### Deep Cycle/Starting Service

Plenty of power and a specially reinforced internal construction to withstand the multiple charging and recharging service of demanding battery powered systems (such as HVAC and APU units).

For commercial vehicles with heavy power demands, these batteries provide one of the industry's best options for integrating deep cycle and moderate starting power performance.

### Fahrenheit AGM

Duracell Fahrenheit AGM commercial batteries are the only batteries with Thermal Shielding Technology. This technology not only protects from the heat but extends life under extreme conditions. Special innovations enable a battery that provides longer cycle service than an AGM product (50% longer under high heat test). Fahrenheit is tough enough to handle the extraordinary conditions where ordinary batteries give up and quit.

### DuraMAT™ Components Feature More battery power protection with...

- Superior electrolyte absorption
- No free-flowing electrolyte
- Shock absorbing material
- Optimized power flow

### TRUST IS POWER.

Visit [www.driveduracell.com](http://www.driveduracell.com) to see the entire line of battery solutions for any application need.

### FOOTNOTES

CA is a reference rating, for comparison only

CCA and RC conform to B.C.I. specifications

2. Black cover / Gray case

13. Absorbed Glass Mat Technology

17. Includes handle

38. "Non-spillable" defined by DOT (Department of Transportation) definitions

39. "Non-spillable" defined by ICAO (International Civil Aviation Organization) and IATA (International Airline Transport Association) definitions

43. Free replacement warranty is 12 months in deep-cycle use and 3 months in full electric use

S. SAE "automotive type" post (TSAE)

X. 3/8 x 16 stainless steel stud posts

**PROPOSITION 65 WARNING:** Battery posts, terminals and related accessories contain lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive harm. Batteries also contain other chemicals known to the State of California to cause cancer. WASH HANDS AFTER HANDLING.

Not just another battery offering, the Duracell AGM line delivers the best single source of premium AGM battery power solutions for the automotive, import vehicle, marine, power sports, and commercial markets. The variety in the Duracell AGM line has batteries to best service the vehicle and user's needs by integrating the optimal balance of starting, cycling, and deep cycling performance.

Designed for more efficient recharging, these batteries recover faster in the vehicle's charging system than conventional flooded batteries to deliver more accessory power longer.
